Founder and engineer, fourteen years shipping production software. Now building AI agents that run real operations. I've been the project manager on almost all my projects, whether as CTO or tech lead.

Experience

2025 to now

KaribuKit Founder and engineer

AI-native hospitality software for safari lodges. Built the first version solo in three months; a small team joined as it grew. Property websites, PMS, an AI guest agent (Ranger), an AI trip planner, and an MCP server that makes lodges bookable by ChatGPT and Claude.

- Live since March 2026: 480+ bookings and 1,100+ guests by 2 November.
- In August 2026 a guest booked a $300 game drive through Ranger with no staff involved.

2024 to 2026

Pear Protocol Lead smart contract developer

Pair-trading protocol on Hyperliquid.

- Wrote the smart contracts Pear launched on (GMX, on Arbitrum) and worked on the Hyperliquid product that replaced them.
- Built Pear Vaults end to end: the smart contracts and the full system. Audited, live September 2026. The first vault filled its $1M cap.
- Planned and ran the PEAR token migration to Hyperliquid: 314M PEAR, 37% of supply, moved in nine days.

2017 to now

SimbaStack Founder, previously Wipiway

US software company. AI agents and onchain engineering for clients. Top 1% Expert-Vetted on Upwork, $100K+ earned, 30+ products shipped.

- QuickSwap: optimized the backend of the largest DEX on Polygon. About 40% gain in latency and infrastructure cost.
- RealNifty: CTO of the curated NFT marketplace. Launched it and scaled to 50+ artist collections.
- Earlier: Chief Blockchain Officer at a NYC fintech startup.

Projects

SlopIt A blog platform your AI agent runs. MCP-first, MIT-licensed, launched April 2026. 66 outside blogs have published 432 posts. slopit.io

Framedex Open-source video and photo indexer on local models. Hacker News front page with 471 points, 380+ GitHub stars. github.com/Simbastack-hq/framedex

RafikiGo AI trip planner for Kenya safaris, priced from real lodge tariffs. rafikigo.com/planner

Mara Hilltop Safari lodge I founded in the Maasai Mara. Runs on KaribuKit. marahilltop.com

Skills

Agent orchestration, MCP, Claude and OpenAI APIs, Claude Code, Python, TypeScript, React, Next.js, Node.js, PostgreSQL, AWS, Linux and DevOps, Stripe, Solidity and EVM.

Education

Pennsylvania State University, B.S. in Information Sciences and Technology. Penn State hackathon winner.
